

Control Panel Replacement Checklist

A quick-reference checklist used by our engineers for every control panels engagement. Print and bring to site, or share with your facilities team.

- Capture existing wiring schematic and I/O list
- Confirm motor and drive compatibility
- Specify PLC, contactors and protective devices
- Plan remote monitoring (4G) connectivity
- Bench-test panel in workshop before dispatch
- Schedule isolation and changeover window
- Commission, ride-quality test and tune
- Hand over O&M; manual and as-built drawings

Questions? Email service@angellifts.co.uk — a senior engineer will respond the same working day.
