

Pre-visit Maintenance Checklist

A quick-reference checklist used by our engineers for every maintenance engagement. Print and bring to site, or share with your facilities team.

- Confirm last LOLER inspection date and report
- Review fault log since previous visit
- Check machine room temperature and ventilation
- Inspect ropes, sheaves and brake assembly
- Test door operator timing and reversal devices
- Lubricate guide shoes and verify oil levels
- Verify emergency lighting and alarm function
- Update digital service log and sign off

Questions? Email service@angellifts.co.uk — a senior engineer will respond the same working day.
