

Modernisation Site Survey Checklist

A quick-reference checklist used by our engineers for every modernisation engagement. Print and bring to site, or share with your facilities team.

- Document existing drive type, age and manufacturer
- Record controller make, model and software version
- Measure shaft dimensions and pit/headroom clearances
- Assess fixture condition (COP, LOPs, indicators)
- Review power supply capacity and metering
- Identify accessibility (DDA) shortfalls
- Capture car interior measurements and finishes
- Confirm phased works schedule with building manager

Questions? Email service@angellifts.co.uk — a senior engineer will respond the same working day.
